

FAASTeam presents:

Preparation A Key to Safe Flying and Training

Chuck Hosmer, 31 years as 777-300 pilot,
ProFlight part 135 Compliance Manager, CJ3
Instructor

I'm planning to use some examples of preparation as being important to safe flying. A "little" outside our experiences is the recent rescue mission to the South Pole by a Twin Otter. I've been in contact with the NSF and am waiting for support material. Closer to home is a CJ-3 flight one of our clients made from Maui to California. Preparation made for a successful flight with fuel to spare. Finally, the tragic takeoff overrun accident in Bedford, MA, where checklists were skipped over and the flight controls were locked, will be used to emphasize the importance of preparation even on "routine" flights.

Directions: The Roosevelt
130 Roosevelt Way New Orleans,LA

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
